

Dear drivers,

Due to COVID-19, we are forced to make some changes in the championship format. We will do our best to ensure that time spent at the track during championship will be enjoyable for everyone but as sport's event host we must at first provide safety, so here are the resolutions for PIKC 2020 organization.

Guidelines were made due to fact, that participants will come from all over Europe so as consequence also from the countries, where pandemic restrictions are stricter than in Poland:

- In the hotel building wearing protective mask is mandatory. Not obeying this rule was stated in the championship regulations and may be penalized in the championship. Inside the Silver hotel there will be persons responsible only for checking if everyone is wearing protective mask. It is possible to buy protective mask at the hotel's reception desk.
- Please make sure to use regularly the hand sanitizers which will be provided at the hotel entrance and in the restaurant.
- Entering the track is possible only with helmet on. If you do not have your own helmet, please enter the track with balaclava on, and next in the pit-stop you can rent a helmet free of charge.
- Gloves are mandatory during all races (full gloves, without holes, don't need to be special racing gloves). It is possible to buy gloves in the Silver Hotel.
- During the race, only drivers taking part in the race may stay in the track side (mandatory with helmets on). In the junior and mini category, the guardian can help with ballast weight and next must leave the track side.
- Drivers taking part in the next race must remain in the special zone (with helmets on) until getting permission to get into the go-karts.
- From Saturday, the balcony area will be excluded from use. Only the marshalls' team will be authorized to stay in this zone. Races can be watched by spectators from the restaurant, from the gates' sides of the track or at live broadcast at YouTube.
- After each race, TOP 3 drivers go directly to the podium area where with protective masks on will have photo taken and published at the PIKC Facebook profile (flags of all nations will be provided for every driver at the podium for photo session purposes).
- Briefing only in the video format (on-line).
- Please reduce the extra persons (accompanying, etc.) to minimum.
- In the restaurant, you may only stay in the table's area (the tables will be placed according to actual Ministry of Health restrictions). There will be special "ordering zone". The drinks need to be picked up directly after ordering, while food will be delivered directly to the table. It is possible to order take-away food (eg. pizza).

- Breakfast at the Silver Hotel will be served in the special separated zone. Only the persons who are having breakfast may remain in the breakfast zone (it is possible to buy breakfast at the restaurant's desk). After having breakfast, you need to leave the restaurant which will be closed at 9 am, disinfected and reopened at 10 am till 10 pm.

- In the outside hotel area there will be provided tables and benches, where guests in the special safety distance will have option to watch the championship or get rest after race.

- There will be provided detailed schedule with races to minimalize the waiting time for the race.

It is possible that there will be a few more statements before the start of the event. Remember that all restrictions are for your safety and to take part in PIKC2020 event in most safest possible conditions.
